Simply advanced.

Simply advanced.

The imageRUNNER ADVANCE 6200 Series transforms workflow from a sequence of individual processes to an integrated flow of shared information. A center for digital communications, this Series will propel your business to new levels of performance and productivity. From every point of view, these models are simply advanced.

People-Centric

An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

Mobile

Even on the go, you're in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

Connected

Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.

Productive

Amazing speed, nonstop operation, and automated features let you accomplish so much more in so little time.

A touch of a button on the user interface lets you access, scan to, or print directly from, certain cloud applications.

Security

Multilayered solutions safeguard confidential information and, with certain options, support security compliance.

Simple to use. Truly personalized.

The industry leader for Ease of Use just got even better.* The Canon imageRUNNER ADVANCE 6200 Series boasts a highly customizable interface that offers individuals and workgroups a genuinely personalized, efficient way to work.

Designed for ease

Thoughtful details, such as a light under the Automatic Document Feeder to alert you that your originals remain and an optional USB keyboard, allow you to work more comfortably. Toner bottles can be replaced with minimal effort, and paper drawers spring open at the touch of a button.

ADF Light

USB Keyboard

Easy Toner Access

One-button Paper Access

Engineered for adaptability

These intelligent systems help you achieve your goals now and in the future. With the ability to smoothly integrate hardware and software solutions, the imageRUNNER ADVANCE 6200 Series lets you personalize applications to meet your organization's changing needs. And it's highly flexible, so you can easily add to, or update, your system with the quick deployment of settings across your enterprise.

Walk-up convenience

Easily scan to, or print from, a USB thumb drive. Browse folders and rename files. Even expand connectivity options to include memory media such as an SD card or CompactFlash card.

A consistent experience

No matter which imageRUNNER ADVANCE device you use, you'll enjoy a consistent, simple-to-use experience. All models in the Series use the same interface and print driver.

Seamless integration. Smart productivity.

Imaging and enterprise applications smoothly converge. Cloud printing and mobility solutions offer the freedom to work anywhere. Multistep tasks become a single step. Speed and accuracy increase with the Series' streamlined, efficient workflow.

On the go

In an increasingly mobile world, people need the ability to work remotely while maintaining their productivity. Now Canon delivers advanced solutions that keep work flowing effortlessly from wherever you are.

Mobile devices

Print and scan from your laptop, iPad® tablet, and iPhone® or BlackBerry® smartphone. Just log-in at an imageRUNNER ADVANCE device to retrieve your job.

Cloud portal

Gain quick access to certain cloud-based applications right from your Canon imageRUNNER ADVANCE device. Simply log-in to access or send documents directly from the cloud.

Advanced Anywhere Print

This serverless solution lets you print to a connected imageRUNNER ADVANCE system, then conveniently and securely log-in at any supported device on the network to view and retrieve your print job.

Extensive Print Solutions

Print Options

Canon's proprietary UFR II print technology is standard with these models. Options including Adobe® PostScript® 3™ and PCL 5e/6 are also supported. Enhance print productivity for multiuser environments with Canon's imagePASS-U2 print controller.

Control

Canon's Driver Configuration Tool allows you to set specific defaults and custom profiles.

You can control costs with features, such as default duplex printing, as well as enhance security by forcing secure print.

Easy collaboration

Scan and store documents

Designed to streamline workflow, these models let you readily save, store, and access scanned documents from multiple locations. Store in built-in spaces, such as Mail Box and Advanced Box, or external spaces, such as memory media or another networked location.

Distribute documents

Distribute scanned documents to multiple destinations, such as e-mail and fax addresses and network folders, all in a single step. Now you can scan and convert both black-and-white and color documents directly into Microsoft PowerPoint or a Searchable PDF format. Universal Send supports an expanded range of file formats, including High Compression PDF/XPS, Adobe PDF Reader Extensions, and Encrypted PDF.

Fax documents

These models support up to four fax lines and have the ability to share the fax function of another networked imageRUNNER ADVANCE model. The Job Forwarding feature routes incoming faxes to other systems, users, or destinations, including Canon LBP desktop models for total fleet integration.

Single-step operation

Transform time-consuming, multistep tasks into a simple, single-step operation. Use Workflow Composer to create all-in-one buttons that can be registered in the Quick Menu. Scan and distribute documents with the touch of one button.

Right from your PC

Enjoy even greater control and convenience right from your PC. Use the new imageRUNNER ADVANCE Quick Printing Tool to print, fax, preview, and convert files to PDFs, as well as monitor the status of your system—all without even opening an application. imageRUNNER ADVANCE Desktop lets you manage and prepare documents, combine multiple formats, preview files, and select the finishing functions.

Integrate imaging with enterprise applications

Canon's new middleware technology effortlessly links enterprise applications, such as Oracle® and SAP®, with Customer Relationship Management (CRM) systems like Salesforce.com® and your selected information management system. You can also combine your document-intensive workflow and processes with these applications. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.

Robust Security. Centralized management.

In today's networked world, you need greater control over your resources and data. The imageRUNNER ADVANCE 6200 Series delivers just that, with the ability to configure a system, safeguard information, and track resources, all right at your fingertips.

Powerful command

Canon's advanced device management tools keep you in charge at every step, right from your desktop and even through the cloud. Now you can easily install and replace devices in your network, and migrate settings and data from old devices to new ones. The intuitive Remote User Interface lets you monitor a single device, while imageWARE Enterprise Management Console lets you track the activity of an entire fleet. Even receive automated notifications when

Safeguard data

From installation to retirement, this Series offers multilayered solutions that safeguard your confidential information and help support security compliance. HDD Erase, a standard feature, removes latent images from hard drives after each task. A security chip with tamper-resistant hardware helps protect passwords and encryption keys. IPsec provides security for data as it traverses the network. Options such as HDD Data Encryption and HDD Lock help protect information even after hard-drive removal.

supplies are low or service is needed.

Maximize resources

The imageRUNNER ADVANCE systems offer advanced tools to help you track, manage, and influence user behavior. With solutions such as uniFLOW, it's easy to analyze output, encourage double-sided printing, and allocate costs by department, project, or client. You can also route jobs to the most cost-effective device.

Secure authentication

With the need to keep data secure, large corporate offices will appreciate the imageRUNNER ADVANCE Series' serverless print environment. Users can print from anywhere within the network to any supported device via log-in authentication. This helps prevent printed documents from being left unattended.

Outstanding quality. Reliable performance.

The imageRUNNER ADVANCE 6200 Series keeps your business moving at peak efficiency with true multitasking power, the ability to customize workflow solutions, and the reliable output of professional-quality documents.

Professional quality

Designed for high-volume environments, the imageRUNNER ADVANCE 6200 Series lets you conveniently and cost-effectively produce professional-quality reports, newsletters, and contracts in house with remarkable ease. Canon's state-of-the-art imaging technology and toner allow you to consistently generate striking images in rich black-and-white tones and 1200 dpi. And with flexible finishing options, everyone in your organization can make a great impression.

Powerful performance

Accomplish multiple tasks concurrently with the exceptional speed your work demands. Canon's Advanced imageCHIP system architecture makes this possible with two dedicated processors that work together to process enormous volumes of data simultaneously.

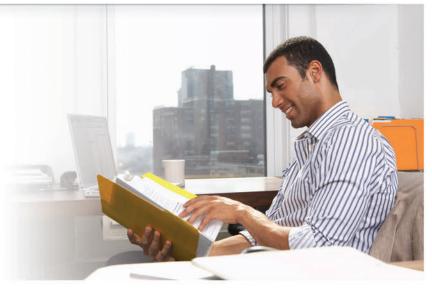

Lots of uptime

Canon builds in signature reliability. The new advanced feeder with improved tray raise-up speed allows jobs to move rapidly through the system. Status notifications help keep supplies replenished, and automatic job re-routing maximizes efficiency. And with access to the latest technology and upgrades, you can power through your tasks.

Targeted, integrated solutions

With productivity paramount, the imageRUNNER ADVANCE 6200 Series offers the ability to personalize the way your company gathers, organizes, and disseminates information. Canon's innovative MEAP® platform lets you develop custom solutions to meet specific workflow needs. And new levels of connector and link support enhance communication with existing systems as well as those you may acquire in the future.

Strong commitment. Eco-conscious solutions.

The imageRUNNER ADVANCE 6200 Series incorporates innovative, eco-conscious solutions that keep your business operating efficiently while helping to reduce your environmental footprint.

A responsible way to work

Canon knows that the world and the workplace need a greener workflow, and the imageRUNNER ADVANCE 6200 Series, rated EPEAT® Silver, delivers just that. Now you can seamlessly share and distribute digital documents and preview files to make changes prior to printing, helping to reduce the use of paper and toner. Print drivers are defaulted to duplex documents, encouraging two-sided printing to reduce waste. And with Secure Print, documents are sent to a device but not printed until a password is entered, contributing to a reduction in paper waste.

Eco-conscious design

Canon is making a difference through creative ecological thinking. These models employ certain components fabricated with recycled plastic from retired products. Canon's innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

A clear strategy

Greater energy efficiency

From the inside out, the imageRUNNER ADVANCE 6200 Series is designed for high energy efficiency and stellar performance. The combination of fusing technologies and pO toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby modes. With advanced technologies present in each model, the Series also meets ENERGY STAR® standards.

Reducing pollution

All Canon suppliers are required to meet Canon's stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restrict the use of certain hazardous substances.

Reduction of CO₂ emissions

Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be the smallest and lightest in their class, with less packaging to help make transportation more efficient.

Customized for your work environment

Finishing Options

A Booklet Finisher-P1

- 3-tray, 4,000-sheet capacity
- Corner and double stapling up to 50 sheets
- Booklet-making up to 16 sheets
