TOTAL DOCUMENT SOLUTIONS
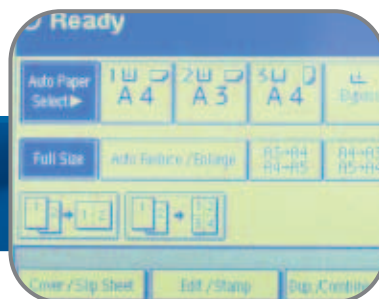

MP 2510/MP 3010

INTELLIGENCE IN ACTION

FOR DOCUMENT PRODUCTION

Aficio™

The intelligent choice for the modern office

Being efficient in the office requires you to work intelligently, to stay in control of document production and ensure maximum productivity. Speed, quality and access to easy-to-use network print, scan, copy and fax functions will save time and encourage your office to run more smoothly.
The MP 2510 and MP 3010 from Gestetner are ideally suited to help your office become more efficient. They are easy to use with fast output speeds, and time-saving paper handling features such as double-sided printing and copying. Document workflow is managed more effectively with intelligent scanning solutions, and advanced document security safeguards your company information more than ever before.

The MP 2510 and MP 3010 are designed to offer flexible, secure and productive document solutions to the office environment. Working intelligently has never been so simple.

Gestetner's unique approach, links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.
Send and scan documents to any email address directly from the device with Scan-to-Email

Scan, store, and access documents via a web browser with Scan-to-URL

Scan and send documents directly to any network folder with the Scan-to-Folder function

Increase productivity with fast black and white network printing

The MP 2510 and MP 3010 produce documents quickly, with 25 pages per minute (ppm) output on the MP 2510, and 30ppm on the MP 3010. These print and copy speeds allow you to output a wide variety of office documents on a range of sizes up to A3 in sharp 600dpi quality. Additionally, these versatile devices allow you to produce even more professional-looking documents with double-sided output and stapling.

Versatile and enhanced printing

Work more intelligently with the MP 2510 and MP 3010s' enhanced printing features. Hold Print acts as a virtual mailbox enabling users to send multiple documents to the device, for printing at a more convenient time. Keep confidential documents such as appraisal forms or financial data secure with Locked Print, which holds printing until the user inserts the document's password at the device's control panel. Particularly useful for large print jobs, Sample Print allows users to proof-check one copy of a document, before printing the rest of the job. Furthermore, frequently used documents can be reproduced quickly and easily direct from the device's control panel with Stored Print, which saves a document and all associated print settings on the device's powerful hard disk. All these intelligent printing features are accessed via the straightforward RPCS printer driver.

Work smart with advanced document communication features

Share information easily and effectively with the 'Scan-to' functions of the MP 2510 and MP 3010. Scan-to-Folder allows users to scan documents directly to a network folder, for convenience and easy distribution. Scan-to-Email lets users send documents to any email address quickly and directly from the easy-to-use control panel. Additionally, avoid sending large documents over your network with Scan-to-URL, which stores scanned documents on the device's hard drive. The URL address is then emailed to the receiver enabling the document to be simply retrieved via a web browser interface.

Efficient working with intelligent fax

The productive and easy to use fax option of the MP 2510 and MP 3010 are designed to help you work more effectively. Save time and paper with Paperless Fax, which allows users to send faxes directly from their PC. For additional convenience, received faxes can be sent directly to a designated email address or network folder.

Protect your documents with security settings

The MP 2510 and MP 3010 are highly intelligent when it comes to document security. Windows Authentication, among other security features, links access to the device via user's Windows log-in, preventing unauthorized use and enabling every print job to be tracked by the Network Administrator. Conveniently, this means users only need to remember one password. Additional security is available with the device's encryption feature, which scrambles certain data, including passwords and the address book, safeguarding against interception and falsification of information. Security for your documents is further increased with the Document Overwrite Security (DOS) feature, which overwrites temporary data on the device's hard disk.
Fast black and white output increases document productivity

Administration of the device is simple with intelligent status notification via email

Control access to the device with Windows Authentication

Administration made simple with intelligent communication

The MP 2510 and MP 3010 make management of these devices easy for Network Administrators. They can consult one or more of these devices by email at a convenient time, even if out of the office, to check status, paper and toner levels and network settings. With LDAP (Lightweight Directory Access Protocol), an automatically updated company address book is stored on the device, saving both the user and Network Administrator time inputting details.

Web Image Monitor

Web Image Monitor comes pre-installed on these devices and is accessed through a standard web browser interface. As a result, Network Administrators save valuable time by managing the MP 2510 and MP 3010 directly from their PC, from setting user names to configuring each function. At the same time, users can view, download and re-print documents stored within the document server, or simply check the status of paper trays or toner levels in these devices, increasing efficiency and productivity.

Web SmartDeviceMonitor 2

Web SmartDeviceMonitor 2 software gives Network Administrators central control of your connected document devices through a web-browser interface. Easily downloaded and installed, it allows you to manage these devices remotely from any desktop, including automatic configuration to your specifications and group and user profiling. Furthermore, Web SmartDeviceMonitor 2 constantly monitors your document devices to provide proactive communication of their status. By quickly emailing alerts to users, devices are on-line in no time maximizing productivity.

Easy and intelligent networking

The MP 2510 and MP 3010 seamlessly integrate into all leading network environments and feature a variety of connectivity options to suit the general office. To take advantage of wireless network connectivity, Wireless LAN (IEEE802.11b) even allows these devices to connect to your network anywhere without using cables.

Kinder to the environment

The MP 2510 and MP 3010 have low power consumption and fast warm-up times, in addition to an energy saver mode. Paper wastage is reduced with the 'Scan-to' features, as users are encouraged to share documents electronically rather than as paper copies, while double-sided printing and copying further reduce paper use.

Outstanding Software and Services

Improving productivity, workflow efficiency and cost control is easy with Gestetner. Designed to add value and ensure our devices operate seamlessly and reliably, we cover every aspect of your business from document management, network control and consultancy, to training and unrivalled support. For connected devices the intelligent way of working is @Remote. This embedded technology uses the Internet to automate administration of the MP 2510 and MP 3010, sending meter readings, service call and consumable notifications directly to Gestetner via a secure connection.

Aficio™

The Gestetner MP 2510 and MP 3010 bear the Aficio Symbol – your sign of digital technology, innovation and customer support in action.

Easy multifunctionality for your office

Make the intelligent choice and experience the varied capabilities of the MP 2510 and MP 3010 from Gestetner. Versatile, productive devices for the office environment – with print, copy, scan and fax capabilities and easy network configuration, they provide a variety of functions in one efficient unit. Enhanced 'Scan-to' and printing features increase document sharing capabilities and productivity. Additionally, with advanced document security helping to safeguard your company, the MP 2510 and MP 3010 represent a clever addition to your office.

SPECIFICATIONS   MP 2510/MP 3010

Printer (Option)

Print speed
25/30 prints per minute

Printer language
Standard: PCL5e, PCL6, RPCS
Option: Adobe PostScript 3

Resolution
Maximum 600 x 600dpi

Interface
Standard: USB 2.0, Ethernet 10 base-T/
100 base-TX
Option: Bi-directional IEEE 1284,
Wireless LAN (IEEE 802.11b),
Bluetooth

Memory
384MB + 40GB Hard disk drive

Network protocol
TCP/IP, IPX/SPX, SMB, AppleTalk

Supported environments
Windows 95/98/Me/NT4.0/2000/XP/
Server 2003
Novell NetWare 3.12/3.2/4.1/4.11/5.0/
5.1/6/6.5
UNIX Sun Solaris 2.6/7/8/9/10
HP-UX 10.x/11.x/11iv2
SCO OpenServer 5.0.6/5.0.7
RedHat Linux 6.x/7.x/8.x/9.x/Enterprise
IBM AIX v4.3/5L v5.1/5L v5.2/5.3
Macintosh 8.6 or later (OS X Classic)
Macintosh X v10.1 or later (native mode)
SAP R/3 (3.x or later)
NDPS Gateway Netware 5.1 (SP8 or later)/
6.0 (SP5 or later)/6.5 (SP3 or later)
IBM iSeries/AS/400 using OS/400 Host
Print Transform

Copier

Copying process
Twin laser beam scanning & electro-
photographic printing

Copy speed
25/30 copies per minute

Resolution
600dpi

Multiple copy
Up to 999

Warm up time
12 seconds

First output speed
4.4 seconds

Zoom
25 - 400% (in 1% steps)

Memory
Standard: 128MB
Maximum: 384MB + 40GB Hard disk drive

Paper input capacity
Standard: 2 x 500-sheet paper trays
Maximum: 3,100 sheets

Paper output capacity
Standard: 500 sheets
Maximum: 1,625 sheets

Paper size
A6 - A3

Paper weight
Paper tray 1: 60 - 105g/m²
Paper tray 2/bypass tray: 52 - 157g/m²
Duplex tray: 64 - 105g/m²

Dimensions (W x D x H)
550 x 604 x 980mm

Weight
Less than 62kg

Power source
220 - 240V, 50/60Hz

Power consumption
Operation: Maximum 1.32kW
Energy saver mode: Less than 120W

Scanner (Option)

Scan speed
Maximum 52 originals per minute
(MH, A4/LEF)

Resolution
Maximum 600dpi (TWAIN: 1,200dpi)

Original size
A5 - A3

Bundled drivers
Network TWAIN

Scan to email
SMTP, TCP/IP

Destination addresses
Maximum 500 per job
(stored: maximum 2,000)

Address book
Via LDAP or locally on Hard disk drive

Scan to folder
SMB, FTP, NCP protocol (with login security)

Destination
Maximum 50 folders per job

Fax (Option)

Circuit
PSTN, PBX

Compatibility
ITU-T (CCITT) G3
ITU-T (T.37) Internet Fax
ITU-T (T.38) IP Fax

Modem speed
Maximum 33.6kbps

Resolution
Standard/detail: 200 x 100/200dpi
Maximum: 400 x 400dpi (option)

Compression method
MH, MR, MMR, JBIG

Scanning speed
Less than 0.56 seconds
(200 x 100dpi, A4/SEF)

Memory
Standard/maximum: 12/44MB

Memory backup
Yes

Software

SmartDeviceMonitor
Web SmartDeviceMonitor 2
Web Image Monitor
DeskTopBinder Lite

Other options

- Platen cover
- 50-sheet Automatic Reverse Document Feeder
- 100-sheet multi-bypass tray
- 2 x 500-sheet paper trays
- 2,000-sheet large capacity tray
- 125-sheet one-bin tray
- 500-sheet finisher
- 1,000-sheet finisher
- Shift sort tray
- Duplex unit
- 40GB Hard disk drive
- 2nd Super G3 port
- Data Overwrite Security Unit
- Copy Data Security Unit
- File Format Converter
- User Account Enhance Unit
- Browser Unit
- Scanner upgrade (for printer option)
- Printer upgrade (for RPCS printer unit)
- VM Card (Java)
- Key Counter Bracket
- Bridge Unit
- Interchange Unit
- Professional software solutions
