Precision engineered to help increase workflow efficiency and provide exceptional image quality, Sharp's MX Monochrome Series workgroup document systems take you to the next level in MFP performance and productivity. A large, **high resolution touch-screen color display** with **graphical menu navigation** and a **full-size retractable keyboard** to simplify data entry are just two of the many advanced features offered by these models. The powerful true multi-tasking controller

enables MX Monochrome Series users to save time and money while producing professional documents in-house—**robust performance** that is also economical. Sharp's advanced device management makes it easy to **control usage and costs**. With the latest **Sharp OSA[®]** development platform, integration with network applications has never been easier. And, to safeguard the confidentiality of your intellectual property, Sharp's industry-leading security suite is second to none.

Sharp's MX Monochrome Series workgroup document systems offer advanced features to enhance productivity and improve workflow

ENGINEERED FOR PERFORMANCE

FLEXIBILITY

PRODUCTIVITY

INTEGRATION

USER-FRIENDLY

- Large, **high resolution touch-screen** color display with graphical navigation (N models)
- Advanced second generation micro-fine toner technology offers crisp, **high quality images** page after page
- Standard 100-sheet duplex single pass document feeder with color **Scan²**™ technology (N models)
- **1200 x 1200 dpi** printing provides clear, crisp images, even on jobs with fine detail (N models)
- Network interface supports **gigabit ethernet**
- Industry-leading **ImageSEND™** function scans documents to USB devices, network folders, e-mail and more (N models)
- Robust 38GB **document filing system** with **thumbnail view** and **image preview** features (N models)
- Standard PCL®6/PCL5e **printing system** with **direct print** function and available Postscript® 3™ and Windows® XPS options (N models)
- Sharp OSA development platform with standard application communication module (N models) enables businesses to streamline document workflow and **enhance productivity***
- ImageSEND function scans documents at up to **70 images per minute** in both black and color (N models)
- **Flexible paper handling** system feeds up to 110 lb index through the paper trays
- On-board paper storage capacity for **up to 5,600 sheets** with options
- **Super G3 fax** option with intelligent inbound routing
- Supports Sharp's latest **award-winning** multi-level document and network **security suite**, which conforms to the new **IEEE-2600™ - 2008 security standard** for MFP devices*
- Advanced **web-based device management** offers both administrator level and user level login control
- **Remote front panel feature** allows users and administrators to view and control machine operations from a PC workstation*
- **Environmentally-friendly design** offers low power consumption, long-life parts and is supported by Sharp's toner recycling program

*Some features may require optional equipment.

INNOVATION THAT BOOSTS PRODUCTIVITY

Standard retractable keyboard makes data entry quick and easy (N models).

Large 8.5" (diagonally measured), high-resolution touch-screen display (N models).

On-line paper capacity stores up to 5,600 sheets with options.

Get on the fast track in today's competitive business environment with Sharp's powerful and dynamic MX Monochrome Series

Award-winning Retractable Keyboard Offers Added Convenience

For workgroups that perform a significant amount of data entry, the MX Monochrome Series document systems include a standard retractable keyboard (N models). Designed to simplify e-mail address and subject line entries, as well as repetitive scanning tasks and user authentication, the built-in keyboard offers users a familiar ergonomic interface.

"Outstanding Achievement for Innovation" Award 2008

The Flexibility and Performance You Need

With a large 8.5" (diagonally measured) **high-resolution touch-screen color display** (N models) and a powerful true **multi-tasking controller**, the MX-M503/M453/M363/M283 workgroup document systems can help elevate your office productivity to the next level. The intuitive menu navigation system with razor-sharp graphics makes operating the MX simple and easy. With Sharp's true multi-tasking controller, complex print jobs can be processed quickly, even while documents are being scanned. But that's just the beginning—with a **standard 100-sheet dual-head scanning document feeder** (N models), automatic duplexing, electronic sorting and integrated offset stacking, you'll complete even large jobs in a snap.

High Quality Output You Can Rely On

The MX Monochrome Series document systems combine Sharp's second generation micro-fine toner technology with **1200 x 1200 dpi** print resolution (N models) to produce documents with crisp, clear images and high quality detail.

Reliability Your Business Can Depend On

Sharp's MX Monochrome workgroup document systems deliver professional performance and optimal productivity to satisfy your daily production needs. Copy/print **speeds up to 50 ppm** help you meet project deadlines with time to spare. The flexible paper handling system can feed up to 110 lb index stock through the paper trays. With available on-line paper capacity of up to 5,600 sheets, the MX Monochrome Series is ready when you are.

ADVANCED WORKFLOW MANAGEMENT

For optimal productivity, Sharp offers award-winning Color Scan² technology (N models).

User-friendly features help increase document workflow efficiency and productivity to optimize day-to-day operations

Speed up your Workflow with Sharp's Innovative Color Scan² technology

Sharp's advanced 100-sheet document feeder with dual reading heads can scan 2-sided documents in a single pass, dramatically improving productivity and reliability (standard on N models). Now you can process even large-scale jobs with incredible efficiency.

USB 2.0 port is located on the front panel of the machine for easy access.

A True Multi-Tasking Document System

The MX-M503/M453/M363/M283 feature a **high-performance, true multi-tasking controller** that delivers copy, fax and print jobs continuously for optimum efficiency.* Some controllers only perform one operation at a time. But the MX Monochrome Series continually processes incoming jobs even while existing jobs are output. The result? A workflow that virtually never slows down—even at crunch time.

Direct USB Printing Adds Convenience and Portability

With Direct USB printing, users can print files in a variety of popular formats directly from USB memory devices such as a ThumbDrive™ or ClipDrive™.* Need to print PDF brochures in a hurry for a big meeting? It's easy with the MX Monochrome Series. Just plug in your portable USB memory device, select the file, and print.*

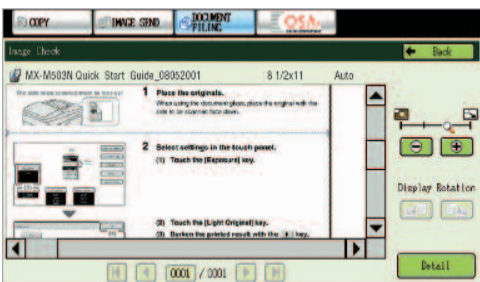

Sharp's easy-to-use document filing system with Thumbnail Preview (N models).

Innovative Document Filing

Sharp's easy-to-use **Document Filing System** provides up to 38GB of hard drive space to store frequently used files such as forms, reports and other commonly used documents for printing and distribution.* Plus, with private storage features and **PIN-code access**, you can store sensitive documents securely. And, with Sharp's **Quick File Folder**, you can temporarily store documents with fast, one-touch simplicity. An easy-to-use backup system helps ensure your files are safe.

To make managing all of your stored jobs simple, the MX touch-screen display offers an intuitive **thumbnail view** to allow walk-up users to easily locate stored jobs even if they don't know the filename (N models). For added convenience, an advanced **Image Check** feature allows selected files to be previewed on-screen—walk-up users can even zoom in, change print attributes or move a file to another folder (N models). With storage capacity for up to 5,500 pages, your document workflow can improve significantly.

Sharp's Image Check feature allows users to preview stored documents at the device (N models).

Get Professional Results with Advanced Finishing

The MX-M503/M453/M363/M283 offer a choice of three high-performance finishers that can give your documents a professional look and feel. Choose from a compact inner finisher, a floor-standing saddle-stitch finisher or a large capacity 4K stacking finisher. All three models offer three-position stapling and an available 3-hole punch.

MX-M503N with 4K stacking finisher and punch unit

MX-M503N with saddle stitch finisher

MX-M503N with compact inner finisher

*Some features may require optional equipment.

PRECISION ENGINEERED, INNOVATIVE FEATURES

Sharp's intuitive print drivers make accessing all of the MX print features quick and easy.

With Sharp's advanced job handling features, users can easily retain print jobs on the MX hard drive for reprinting at a later date.*

Stay out front with robust, easy-to-use print drivers to help maximize document workflow efficiency in any business environment

Exceptional Print Quality with Professional Output

With the MX Monochrome Series, your business can produce razor-sharp B&W documents. Plus, with **1200 x 1200 dpi resolution**, (N models) even documents with fine detail will look great! Sharp's easy-to-use print drivers allow users to set up even complex jobs with just a few mouse clicks. Simple plug-n-play operation makes it easy to take advantage of advanced feature sets in a snap. Special functions like Tab Paper Print, Chapter Inserts and Carbon Copy Print allow you to quickly produce a variety of document types.

The **optional Postscript driver** delivers extensive finishing features that include three-position stapling for up to 50 sheets, saddle stitch finishing for up to 15 ledger size pages and three-hole punching.* Now you can produce professional quality documents from your desktop that look so good, everyone will think you had them sent out to a printer.

Advanced Job Retention Features Enhance Productivity

Sharp's innovative printing system makes it easy for any business to store and archive print jobs.* With the ability to retain jobs on the MX hard drive, documents can be stored and reprinted again and again by walk-up users or through the **embedded web page**.* Print jobs can even be sent to the MX for archiving without printing them! Need to store sensitive documents? No problem! Users can assign a password right from the print driver or from the MX operation panel!

*Some features may require optional equipment.

FLEXIBLE DOCUMENT DISTRIBUTION

In today's fast-moving business environments, you need every advantage you can get—Sharp's new MX Monochrome document systems give you the edge

Integrated Network Scanning

With Sharp's powerful **ImageSend** technology, you get one-touch distribution features that centralize document workflow, reduce mail costs and save time. With up to **seven destinations**—E-mail, Desktop, FTP, Network Folders (SMB), USB, Fax and Internet Fax—getting your document where it needs to go is as easy as pushing a button. High-volume workgroups will appreciate the **Send to Group** mode that allows you to mix group broadcast to E-mail, Fax, and Internet Fax for increased efficiency.*

Convenient E-mail Distribution

With Lightweight Directory Access Protocol (LDAP), there's no need to manually enter a recipient's complete e-mail address. Simply enter the first few characters and the MX automatically searches and displays a list of matching names. **Unique File Naming** allows users to enter specific file names with custom subject fields, so it's easier than ever to recall files when you need them. And, with **Sharpdesk**® personal document management software, users can easily organize their scanned documents and integrate them into everyday workflow.*

Sharpdesk for Total Document Management

Powerful, flexible and intuitive, Sharpdesk personal document management software enables you to easily manage all of your scanned documents. Easy-to-use tools help you organize, edit, even combine scanned files, for maximum productivity. The innovative **Search and Index feature** provides sophisticated tools that enable you to retrieve archived documents with incredible simplicity.

Integrated Super G3 Fax and Internet Fax

Add powerful facsimile capability to your MX monochrome Series with the optional Super G3 fax module, which offers advanced features such as automatic stapled/copied receptions and Inbound Fax Routing to e-mail. Sharp's innovative **PC fax driver** enables users to send fax documents right from their desktop. For Internet Fax operation, add the optional B&W Internet Fax expansion kit.

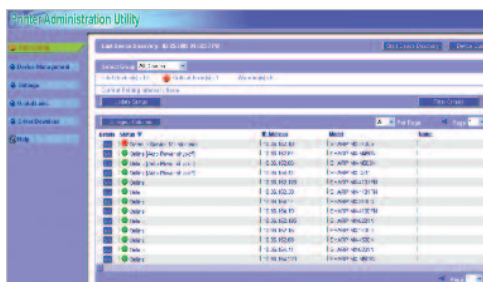

Intuitive desktop display features thumbnail viewing and file search allows searching by file name, keyword, or thumbnail.

*Some features may require optional equipment.

ADVANCED DEVICE MANAGEMENT

Printer Administration Utility

Engineered with you in mind, the MX Monochrome Series combines easy-to-use integrated software with robust capabilities

The Sharp Administration Utility Suite

Sharp's Administration Utility Suite takes management of your MX-M503/M453/M363/M283 to the next level. This easy-to-use software allows you to take control of the versatile system features and simplifies installation and management.

- With **Printer Status Monitor**, network users can view printer conditions, check paper levels, toner, and more—all through an easy-to-use interface.
- With Sharp's advanced **Printer Administration Utility**, administrators can easily manage the setup, configuration, device settings, cloning and more! New advanced features such as **Remote Front Panel** allow administrators and support personnel to view and control the LCD panel of the machine remotely from any PC on the network!* Plus, with event-driven, real-time service alerts, administrators and supervisors can achieve higher productivity. Now, it is easier than ever to view service logs, click counts, history reports and more.
- Experience the convenience of an **Embedded Web Page** right from your desktop! This advanced web-based management tool allows users to create and manage their own network scanning destinations, profiles and web-links. Administrators can access device settings, color control, account information and security settings.

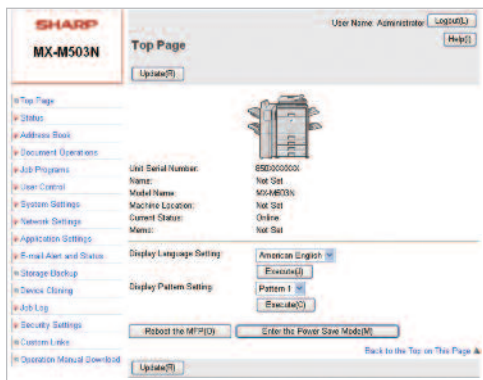

Remote Front Panel

Take Charge of Usage and Costs

With Sharp's **device management system**, administrators and supervisors can define user groups on the MX to manage and restrict features, such as copying, scanning or printing. Easily set up a custom user group to manage page counts (copy, print, scan or fax operations). The MX-M503/M453/M363/M283 can store **profiles for up to 1,000 users**.

24/7 Training with My Sharp

Managing all of the advanced features of your Sharp product is simple and easy. Ask your Authorized Sharp Dealer about **My Sharp**. This dedicated customer training website is customized to your MX-M503/M453/M363/M283 and allows you to locate resources and find information specific to your configuration, truly helping you maximize your investment.

Embedded Web Page

GET MORE OUT OF NETWORK APPLICATIONS

Sharp OSA® technology at a glance

- Automate tasks and save time with seamless integration between the MX-M503/M453/M363/M283 and network applications
- Centralized applications minimize set-up and installation on multiple Sharp products
- Virtually eliminates repetitive tasks and streamlines workflow, increasing efficiency
- Maximize your return on investment with tighter integration among IT assets
- Industry standard programming leads to faster deployment of new solutions

"Best Device Management and Integration Technology for MFP Series" Award 2009

To help streamline document workflow and enhance productivity, the new MX Monochrome Series supports the Sharp OSA platform

Versatile Application Integration

The MX-M503/M453/M363/M283 document systems provide powerful functionality for your business so you can immediately leverage your previous investments in data management infrastructure.* While others are limited to a small circle of productivity, Sharp's newest innovation, the Sharp OSA development platform, allows users to leverage the power of their back-end systems right from the control panel. It's really a new way of thinking with "power at the panel" for automation of tasks and a streamlined workflow.

Save Time, Increase Efficiency

You'll save time and increase the efficiency of everyday tasks with Sharp OSA technology because it can be virtually seamless to the user. Any MX-M503/M453/M363/M283 anywhere in the organization can display choices that were once only available on a desktop PC. With one-touch access to business applications via Sharp OSA integration, you can start and finish a document distribution task without worry.

Complement Your Infrastructure

The Sharp OSA development platform is the logical choice as a complement to your existing infrastructure. With the **standard application communication module** (N models), the new MX Monochrome Series becomes the gateway to providing fast, flexible access to documents and applications... no matter where you are in the office. Optionally you can get the controlled access and tracking ability you require with tighter integration capabilities for network security and accounting applications. With such comprehensive control, you'll be able to manage your document workflow easily, efficiently, and more securely.

Customized Technology

Sharp OSA technology also provides customization. With the ability to personalize applications and processes specific to your business, Sharp OSA technology can help eliminate redundancy and streamline workflow, helping to save time and optimize productivity. And since Sharp OSA technology utilizes industry-standard network protocols such as SOAP, XML, and XHTML, third party software developers can deliver customized solutions to your business faster than ever.

HEIGHTENED SECURITY

"Most Secure MFP
Range" Award—6th
Consecutive Year

PRIVACY

AUTHORIZATION

CONFIDENTIALITY

PROTECTION

Innovative document and device protection helps ensure confidentiality

To help protect your data, the MX Monochrome Series offers several layers of security, making Sharp the optimum choice to protect employee privacy and intellectual property. As the leader in office equipment security, Sharp makes it easy for any business or government entity to safely deploy digital copying, printing, scanning and faxing.

Authority Groups and Access Control

Advanced account management enables administrators to set authority groups for access to features of the MX Monochrome Series. Administrators can control which department, for instance, has full access to copying, printing, scanning and/or fax. Walk up users enter a code, Local Name and Password, or LDAP User Authentication to access their features assigned to their group. Users can also login utilizing a human interface device (HID) such as a Smartcard or Common Access Card (CAC).*

Data Erase and Encryption*

To help protect your data, the MX Monochrome Series offers an optional data security kit that encrypts document data using **AES** (Advanced Encryption Standard) **encryption**. Additionally, the data security kit erases the temporary memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance. Additionally, the data security kits for these models comply to the new IEEE-2600-2008 security standard for MFP devices. This new standard specifies security requirements and provides a new international reference to assess contemporary MFP security.

Network Scanning Access

To help protect your network from unauthorized e-mail communications, the MX Monochrome Series supports **User Authentication**, requiring users to login before performing any network scanning operations.

Control Device Access Over the Network

To help restrict access to the device over the network, the MX Monochrome Series offers IPsec, SMB and extended support for **SSL Encryption** (Secure Sockets Layer), **IP/MAC address filtering**, IEEE 802.1x authentication, protocol enable/disable and port management for maximum security.

Documents Remain Confidential

To help protect your printed documents from unauthorized viewing, the MX Monochrome Series offers encrypted PDF files for printing and scanning as well as **Confidential Printing** that requires users to enter a PIN code in order to print a queued document. Additionally, **Secure Fax Release** ensures received fax documents are held in memory until an authorized user enters a PIN code. So compliance with healthcare regulations such as HIPAA is easier.

Tracking and Auditing Information

Legislation and industry policies require companies to be more aware of information flow from their offices. Sharp offers both built-in and additional hardware/software which allows users to control, access and track usage of each device on the network.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Health Insurance Portability and Accountability Act (HIPAA), and the Gramm Leach Bliley Act (GLB). For additional information visit: www.sharppusa.com/security.

*Some features may require optional equipment.

ENVIRONMENTALLY FRIENDLY

Sharp's ongoing commitment and dedication to developing eco-friendly document systems set a high standard for the industry

Designed with a Strong Commitment to Protecting the Environment

The MX Monochrome Series document systems utilize Sharp's second generation micro-fine toner technology, which offers a lower consumption rate than conventional toners. This also results in less packaging material and longer replacement intervals. Additionally, all Sharp supplies are packaged using fully recyclable materials. Power consumption on the MX Monochrome Series is among the lowest in the industry and supports two different energy saving modes to reduce or shut off power after a set interval. All Sharp document systems belong to the EnergyStar® program, and RoHS program.

An Economical, Low Maintenance Document System That Makes Sense

The MX Monochrome Series is designed to accommodate both large and small office environments. With a compact wingless design, the footprint of each base model is less than 25" x 27". Our new long-life consumable parts and supplies minimize service intervals and down time, resulting in lower operating costs.

Sharp's Environmental Leadership

Reinforcing our commitment to the environment, in 2007, Sharp received the *Excellence in Partnership Green Contractor Award* and the **Evergreen Award** from the U.S. Government's General Services Administration and the Coalition for Government Procurement.

The Green Contractor Award recognizes contractors that have made the best overall commitment to the environment by offering environmentally friendly products and services or adhering to environmentally sound manufacturing procedures. The Evergreen Award identifies environmentally-friendly businesses and their efforts in recycling and waste reduction practices. Please visit www.sharppusa.com/environment to learn more about our environmental leadership.

Toner Recycling Program

As part of our commitment to preserving the environment, Sharp offers customers a toner recycling program for all Sharp copiers and MFP products. Sharp encourages customers to recycle their used toner cartridges by providing a pre-paid shipping label for their return to our facility. Please visit www.sharppusa.com/recycle to learn more.
